Work History

Senior Frontend Developer

BuildPiper - By Opstree Labs Pvt Ltd., Noida | January 2022 - Current

- Defined feature requirements, designed wireframes, and implemented scalable, reusable frontend components using React.js and TypeScript.
- Upgraded React.js versions from 16 to 18, improving performance by 70% using lazy loading, code splitting, and optimization strategies.
- Integrated RESTful APIs, implemented Redux and Context API, and optimized API handling.
- Developed pixel-perfect, responsive UI components, ensuring cross-browser compatibility and mobile-first design.
- Partnered with UX designers, backend engineers, and product teams to deliver high-quality features in Agile sprints.
- Conducted code reviews, mentored junior developers, and led workshops on React.js best practices and UI performance tuning.

HTML Frontend Developer

BuildPiper - By Opstree Labs Pvt Ltd, Noida, India | November 2019 - December 2021

- Developed frontend features using React.js, including listing pages, add/edit flows, and seamless API integrations for BuildPiper.
- Built features leveraging drag-and-drop functionality, crafting complex UI interactions using libraries like React DnD to enhance user experience.
- Developed execution flow views (similar to pipeline execution visualizations), enabling users to track and interact with dynamic deployment processes.
- Implemented interactive charts and visualizations to provide actionable insights using tools like Highcharts and custom chart components.
- Actively involved in UX design and UI development of BuildPiper, contributing to an intuitive, user-friendly, and visually appealing interface.
- Created wireframes, prototypes, and design concepts to enhance user experience and improve overall product usability.
- Designed and developed websites for Opstree Solutions, and BuildPiper Documentation, ensuring high performance, scalability, and responsiveness.
- Created visually engaging graphics for social media posts, marketing campaigns, and SMM (Social Media Marketing) activities to enhance brand visibility.
- Designed certificates and digital assets for the DevOps Ninja learning program and other marketing initiatives.

HTML Developer

Aastha Online Ventures LLP | October 2018 - April 2019

- Designed email templates and websites, converting designs to HTML using Photoshop.
- Developed a website for Media Swag using Wix.
- Managed the admin portal of TalentSwag.

- Created and implemented designs in line with company branding standards.

Education

Bachelor of Computer Applications in Computer Applications Development

Directorate of Distance Education, Subharti University, Meerut, India, India | January 2021

Accomplishments

- Developed and optimized 4+ SaaS products: BuildPiper, Maturity Insights, EMS, and Developer Insights.
- Reduced BuildPiper's load time by 70% by implementing lazy loading and optimization techniques.
- Successfully upgraded BuildPiper & Maturity Insights from React 16 to 18 with zero downtime.
- Implemented drag-and-drop functionality using React DnD for seamless user interactions.
- Led multiple feature developments from wireframing to final deployment, ensuring timely releases.

Languages

- Fluent in English
- Fluent in Hindi

Availability

Open to new opportunities and collaborations.

Hobbies

- Traveling
- Video gaming
- Playing badminton
- Indoor cricket

Area Of Expertise

- Skilled in React.js, HTML5, CSS3, Sass, and Material-UI for building responsive, user-friendly web applications.
- Experienced in creating interactive dashboards using Highcharts for visualizing metrics like project progress, employee status, and salary distribution.

- Reduced build time by 70% through lazy loading, code splitting, and tree shaking.
- Hands-on experience with WordPress, Wix, and Shopify, customizing templates and ensuring responsive, SEO-friendly designs.
- Developed drag-and-drop functionality using React DND, improving user interaction and workflow management.
- Worked with designers, UX, and backend developers; created documentation with Docusaurus 2.0.
